★ COURSE OVERVIEW

Most projects and business performed by companies involve the use of contracts.

In many cases the people tasked with ensuring delivery on those contracts are not always those involved in setting up the contract or, if they are, they are not always informed of the implications of some of the terms of the contract until it is too late.

The terms & conditions of a contract can have enormous implications in terms of the likelihood of satisfying the expectations of delivery.

Consequently, to assist companies ensure that they understand contracts proposed to them or are able to best formulate contracts issued by them, AstroTech offers a training course on Business Contracts and SLAs.

The course covers the following key topics:

- > Purpose & Objectives of Contracts
 - > Contract Types
 - > Penalties & Incentives
 - > Terms & Conditions
 - > Payment Terms & their implications
 - > Forward Cover
 - > Contracts Law
 - > Performance, Non-performance & Possibility of Performance
 - > Confidentiality & Non-disclosure agreements
 - > Breach of Contract
 - > Remedies for contract breach
 - > Contract termination
 - > Arbitration & dispute resolution
 - > Service Level Agreements (SLAs)
 - > Tender processes
 - > Consortia & multiple suppliers
- ...AND MUCH MORE!
